CANADIAN JOURNAL OF BIOCHEMISTRY

JOURNAL CANADIEN DE BIOCHIMIE

VOLUME 57, 1979

Author Index/Index des auteurs

Under each name are listed, in chronological order of publication, all articles in which an author has participated/ Chaque notice indique, dans l'ordre chronologique de publication, tous les articles auxquels l'auteur a participé

Ahmad, F.
Characterization of a stable intermediate in the unfolding of diazoacetylglycine ethyl ester – pepsin by urea
FAIZAN AHMAD and PETER MCPHIE **1090**

Akpan, J.O.
The effects of prostaglandins on secretion of glucagon and insulin by the perfused rat pancreas
J.O. AKPAN, M.C. HURLEY, S. PEK, and W.E.M. LANDS **540**

Alfonzo, M.
Components and mechanism of action of ATP-driven proton pumps
MARCELO ALFONZO and EFRAIM RACKER **1351**

Angel, A.
Low density lipoprotein binding, internalization, and degradation in human adipose cells
A. ANGEL, M.A. D'COSTA, and R. YUEN **578**

Angel, A.
Inhibition of rat and human adipocyte adenylate cyclase in the antilipolytic action of insulin, clofibrate, and nicotinic acid
MARIO A. D'COSTA, WINIFREDA ASICO, and AUBIE ANGEL **1058**

Anwar, R.A.
Purification of UDP-*N*-acetylenolpyruvoylglucosamine reductase from *Escherichia coli* by affinity chromatography, its subunit structure and the absence of flavin as the prosthetic group
RASHID A. ANWAR and MARIANA VLAOVIC **188**

Arron, G.P.
Oxidation of reduced nicotinamide adenine dinucleotide phosphate by plant mitochondria
GEOFFREY P. ARRON and GERALD E. EDWARDS **1392**

Asico, W.
Inhibition of rat and human adipocyte adenylate cyclase in the antilipolytic action of insulin, clofibrate, and nicotinic acid
MARIO A. D'COSTA, WINIFREDA ASICO, and AUBIE ANGEL **1058**

Audette, M.
A rapid method for the purification of antibody–enzyme conjugates
M. PAGÉ, M. AUDETTE, and M. CARON **286**

Bag, J.
Isolation and characterization of the nonpolysomal cytoplasmic messenger ribonucleoprotein complexes of rat liver
JNANANKUR BAG and BRUCE H. SELLS **1051**

Baker, R.R.
The fatty acid composition of phosphoglycerides of nerve cell bodies isolated in bulk from rabbit cerebral cortex: changes during development and positional distribution
R. ROY BAKER **378**

Bala, R.M.
Purification of a basic somatomedin, from human plasma Cohn fraction IV-1, with physicochemical and radioimmunoassay similarity to somatomedin-C and insulin-like growth factor
R. MARVIN BALA and B. BHAUMICK **1289**

Baldo, J.H.
Lysozyme catalysis: kinetics of the hydrolysis of cell wall oligosaccharides
KEN BOEKELHEIDE, STEVEN L. PATT, GREG WEISZ, JOHN H. BALDO, and BRIAN D. SYKE **785**

Ball, E.H.
The cyclic adenosine monophosphate phosphodiesterases of myoblasts, fibroblasts, and their somatic cell hybrids
E.H. BALL, S.NARINDRASORASAK, and B.D. SANWAL **1220**

Barankiewicz, G.
Relationships among purine nucleoside metabolism, adenosine triphosphate catabolism, and glycolysis in human erythrocytes
J. FRANK HENDERSON, GEORGE ZOMBOR, PHILIP W. BURRIDGE, GEORGE BARANKIEWICZ, and CAMILLA M. SMITH **873**

Baumal, R.
The kinetics of *in vitro* reoxidation and reduction of the inter heavy–light chain disulfide bond in an ususual murine immunoglobulin G myeloma protein lacking inter-heavy chain disulfide bonds
MAIRE E. PERCY, LEBE CHANG, CATHERINE DEMOLIOU, and REUBEN BAUMAL **279**

Bees, W.C.H.
Partial characterization of the mode of inhibition of *Escherichia coli* RNA polymerase by the mixed disulfide, CoASSG
WILLIAM C.H. BEES and PETER C. LOEWEN **336**

Bégin-Heick, N.
The identification of α-adrenergic receptors in adipose tissue by [^{3}H]dihydroergocryptine binding
NICOLE BÉGIN-HEICK, PAULEEN A. HOULIHAN, and JOSÉ SIGOUIN **1047**

Behar-Bannelier, M.
Suitability of L-[^{35}S]methionine for studying the biosynthesis of the polypeptides of mouse liver endoplasmic reticulum membrane fractions *in vivo*
MONIQUE BEHAR-BANNELIER, RAJENDRA N. SHARMA, and ROBERT K. MURRAY **625**

Bell, A.W.
The reactions of *Escherichia coli* citrate synthase with the sulfhydryl reagents 5,5′-dithiobis-(2-nitrobenzoic acid) and 4,4′-dithiodipyridine
MICHAEL M. TALGOY, ALEXANDER W. BELL, and HARRY W. DUCKWORTH **822**

Benjannet, S.
From β-lipotropin to β-endorphin and 'pro-opio-melanocortin'
M. CHRÉTIEN, S. BENJANNET, F. GOSSARD, C. GIANOULAKIS, P. CRINE, M. LIS, and N.G. SEIDAH **1111**

Benoiton, N.L.
Lysyl dipeptide and tripeptide model systems for racemization studies in amino acid and peptide chemistry
N. LEO BENOITON, KEIJI KURODA, S.T. CHEUNG, and FRANCIS M.F. CHEN **776**

Benoiton, N.L.
Erratum: Lysyl dipeptide and tripeptide model systems for racemization studies in amino acid and peptide chemistry
N. LEO BENOITON, KEIJI KURODA, S.T. CHEUNG, and FRANCIS M.F. CHEN **1250**

Berry, L.R.
Chromatography of heparin on Sepharose–lysine: molecular size fractionation and its relevance to thrombin and antithrombin III binding
M.W.C. HATTON, L.R. BERRY, H. KAUR, A. KOJ, and E. REGOECZI **1183**

Bewick, M.A.
Dicarboxylic acid transport in *Escherichia coli* K12: involvement of a binding protein in the translocation of dicarboxylic acids across the outer membrane of the cell envelope
MARY A. BEWICK and THEODORE C.Y. LO **653**

Bhaumick, B.
Purification of a basic somatomedin, from human plasma Cohn fraction IV-1, with physicochemical and radioimmunoassay similarity to somatomedin-C and insulin-like growth factor
R. MARVIN BALA and B. BHAUMICK **1289**

Bibor-Hardy, V.
Presence of herpes simplex virus type 2 DNA in hamster cells oncogenically transformed by ultraviolet-inactivated virus
V. BIBOR-HARDY, A. KESSOUS, and R. SIMARD **867**

Birnbaum, G.I.
Conformation of exocyclic amino groups in purines and pyrimidines: crystal structure and conformation of 1-methyl-N^4-hydroxycytosine hydrochloride
GEORGE I. BIRNBAUM, TADEUSZ KULIKOWSKI, and DAVID SHUGAR **308**

Bodnaryk, R.P.
Characterization of an octopamine-sensitive adenylate cyclase from insect brain (*Mamestra configurata* Wlk.)
ROBERT P. BODNARYK **226**

Boekelheide, K.
Lysozyme catalysis: kinetics of the hydrolysis of cell wall oligosaccharides
KEN BOEKELHEIDE, STEVEN L. PATT, GREG WEISZ, JOHN H. BALDO, and BRIAN D. SYKE **785**

Boisselle, A.
Interaction of spironolactone with rat skin androgen receptor
ANDRÉE BOISSELLE, FRANCE T. DIONNE, and ROLAND R. TREMBLAY **1042**

Bonen, L.
Cyanobacterial evolution: results of 16S ribosomal ribonucleic acid sequence alalyses
L. BONEN, W.F. DOOLITTLE, and G.E. FOX **879**

Borges, J.M.D.
Histochemical and cytochemical localization of acetylcholinesterase in retina and optic tectum of teleost fish
BORIS D. DRUJAN, J.M. DÍAZ BORGES, and M. BRZIN **43**

Bouchard, S.
Biochemical properties and kinetic parameters of dihydroxyphenylalanine – 5-hydroxytryptophan decarboxylase in brain, liver, and adrenals of cat
SYLVIE BOUCHARD and ANDRÉE G. ROBERGE **1014**

Boulton, A.A.
N-Acylation of tyramines: purification and characterization of an arylamine *N*-acetyltransferase from rat brain and liver
PETER H. YU and ALAN A. BOULTON **1204**

Bourgeois-Victor, P.
Evolution et controle de l'activité de l'amylo-1,6-glucosidase du foie foetal de rat
R. VAILLANT, P. BOURGEOIS-VICTOR et A. FAIRAND **1245**

Boyle, S.M.
Influence of magnesium and polyamines on the reactivity of individual ribosomal subunit proteins to lactoperoxidase-catalyzed iodination
CHESTER J. MICHALSKI, STEPHEN M. BOYLE, and BRUCE H. SELLS **250**

Bragg, P.D.
Photooxidation of NADH by 2,3-butanedione: a potential source of error in studies on active site arginyl residues
MONA HOMYK and P.D. BRAGG **977**

Bragg, P.D.
The action of tributyltin chloride on the uptake of proline and glutamine by intact cells of *Escherichia coli*
A.P. SINGH and P.D. BRAGG **1376**

Bragg, P.D.
The action of tributyltin chloride on energy-dependent transhydrogenation of NADP$^+$ by NADH in membranes of *Escherichia coli*
A.P. SINGH and P.D. BRAGG **1384**

Brandt, N.R.
The localization of honey bee thorax trehalase
N.R. BRANDT and R.E. HUBER **145**

Brandt, N.R.
The kinetic parameters of trehalase in whole and disrupted mitochondrial preparations from two insects with asynchronous muscle
N.R. BRANDT, K.L. HURLBURT, and R.E. HUBER **1210**

Brayer, G.D.
The 2.8 Å resolution structure of *Streptomyces griseus* protease B and its homology with α-chymotrypsin and *Streptomyces griseus* protease A
LOUIS T.J. DELBAERE, GARY D. BRAYER, and MICHAEL N.G. JAMES **135**

Breckenridge, W.C.
Identification of lipoprotein X-like particles in rat plasma following Intralipid infusion
W.C. BRECKENRIDGE, G. KAKIS, and A.KUKSIS **72**

Brisson, N.
Selective spin-labelling of the ribosomal proteins of 70S ribosomes from *Escherichia coli*
H. DUGAS, A. RODRIGUEZ, and N. BRISSON **1407**

Brown, D.L.
Microtubules, colchicine, and lymphocyte blastogenesis
CHRISTOPHER E. RUDD, KEM A. ROGERS, DAVID L. BROWN, and J. GORDIN KAPLAN **673**

Brown, S.A.
Affinity chromatography of *Ruta graveolens* L. *O*-methyltransferases. Studies demonstrating the potential of the technique in the mechanistic investigation of *O*-methyltransferases
SATISH K. SHARMA and STEWART A. BROWN **986**

Brubacher, L.J.
A kinetic study of hydrophobic interactions at the S1 and S2 sites of papain
LEWIS J. BRUBACHER and M.R. ZAHER **1064**

Brzin, M.
Histochemical and cytochemical localization of acetylcholinesterase in retina and optic tectum of teleost fish
BORIS D. DRUJAN, J.M. DÍAZ BORGES, and M. BRZIN **43**

Bundle, D.R.
Antibody to an artificial disaccharide antigen cross-reactive with *Neisseria gonorrhoeae* lipopolysaccharide
DAVID R. BUNDLE **367**

Burridge, P.W.
Relationships among purine nucleoside metabolism, adenosine triphosphate catabolism, and glycolysis in human erythrocytes
J. FRANK HENDERSON, GEORGE ZOMBOR, PHILIP W. BURRIDGE, GEORGE BARANKIEWICZ, and CAMILLA M. SMITH **873**

Burrow, G.N.
Effect of thyrotropin on the posphorylation of thyroid chromosomal proteins
YEW PHEW SEE, G.N. BURROW, and C.C. LIEW **523**

Buu, N.T.
Dopamine-4-*O*-sulfate: a possible precursor of free norepinephrine
NGUYEN T. BUU and OTTO KUCHEL **1159**

Byers, D.M.
The effects of alcohols on the structure of human glycophorin
DAVID M. BYERS and JACOB A. VERPOORTE **1153**

Campbell, I.M.
Changes in the osmotic behaviour of phosphatidylcholine vesicles induced by interaction with polyamino acids
WILLY K. CHWANG, ASHA PAWAGI, and IAN M. CAMPBELL **302**

Campbell, I.M.
Temperature-dependent interactions between poly-L-lysine and phosphatidylcholine vesicles
IAN M. CAMPBELL and ASHA B. PAWAGI **1099**

Caron, M.
A rapid method for the purification of antibody–enzyme conjugates
M. PAGÉ, M. AUDETTE, and M. CARON **286**

Carroll, K.K.
Effects of dietary carbohydrate on cholesterol metabolism in rats and rabbits
A.D. FALCONER and K.K. CARROLL **645**

Cedergren, R.J.
Distinctive properties of glutamine synthetase from the cyanobacterium *Anacystis nidulans*
DIANE EMOND, NORMAND RONDEAU, and R.J. CEDERGREN **843**

Chan, P.K.
Identification of nonhistone chromatin proteins in chromatin subunits (or mononucleosomes) devoid of histone H_1
P.K. CHAN and C.C. LIEW **666**

Chan, W.W.-C.
Aspartate transcarbamoylase: loss of homotropic but not heterotropic interactions upon modification of the catalytic subunit with a bifunctional reagent
WILLIAM W.-C. CHAN and CAROLINE A. ENNS **798**

Chang, H.-L.
Distribution of the multiple molecular forms of glucose-6-phosphate dehydrogenase in different physiological states
HSIAO-LIN CHANG, DAROLD HOLTEN, and ROM KARIN **396**

Chang, L.
The kinetics of *in vitro* reoxidation and reduction of the inter heavy–light chain disulfide bond in an ususual murine immunoglobulin G myeloma protein lacking inter-heavy chain disulfide bonds
MAIRE E. PERCY, LEBE CHANG, CATHERINE DEMOLIOU, and REUBEN BAUMAL **279**

Chauvin, M.M.
Purification of dihydropterin reductase using immobilized Cibacron Blue
MICHAEL M. CHAUVIN, KARL K. KORRI, ANNE TIRPAK, ROBERT C. SIMPSON, and K.G. SCRIMGEOUR **178**

Chen, F.M.F.
Lysyl dipeptide and tripeptide model systems for racemization studies in amino acid and peptide chemistry
N. LEO BENOITON, KEIJI KURODA, S.T. CHEUNG, and FRANCIS M.F. CHEN **776**

Chen, F.M.F.
Erratum: Lysyl dipeptide and tripeptide model systems for racemization studies in amino acid and peptide chemistry
N. LEO BENOITON, KEIJI KURODA, S.T. CHEUNG, and FRANCIS M.F. CHEN **1250**

Cheung, S.T.
Lysyl dipeptide and tripeptide model systems for racemization studies in amino acid and peptide chemistry
N. Leo Benoiton, Keiji Kuroda, S.T. Cheung, and Francis M.F. Chen **776**

Cheung, S.T.
Erratum: Lysyl dipeptide and tripeptide model systems for racemization studies in amino acid and peptide chemistry
N. Leo Benoiton, Keiji Kuroda, S.T. Cheung, and Francis M.F. Chen **1250**

Child, P.
Preparation and mass spectral behaviour of some 5 β-cholenoic acids
P. Child, A. Kuksis, and L. Marai **216**

Child, P.
Resolution of saturated and unsaturated 5 β-cholanoic acids by gas–liquid and thin-layer chromatography
P. Child, A. Kuksis, and J.J. Myher **639**

Chow, T.Y.-K.
The major intracellular alkaline deoxyribonuclease activities expressed in wild-type and *Rec*-like mutants of *Neurospora crassa*
T.Y.-K. Chow and M.J. Fraser **889**

Choy, P.C.
Lipid requirements for the aggregation of CTP: phosphocholine cytidylyl transferase in rat liver cytosol
Patrick C. Choy, S. Blake Farren, and Dennis E. Vance **605**

Chrétien, M.
From β-lipotropin to β-endorphin and 'pro-opio-melanocortin'
M. Chrétien, S. Benjannet, F. Gossard, C. Gianoulakis, P. Crine, M. Lis, and N.G. Seidah **1111**

Chu, A.
The *rep* mutation. VI. Purification and properties of the *Escherichia coli rep* protein, DNA helicase III
Seishi Takahashi, Christian Hours, Alan Chu, and David T. Denhardt **855**

Chwang, W.K.
Changes in the osmotic behaviour of phosphatidylcholine vesicles induced by interaction with polyamino acids
Willy K. Chwang, Asha Pawagi, and Ian M. Campbell **302**

Clarke, J.T.R.
Studies on the neutral glycosphingolipids of porcine plasma
J.T.R. Clarke and J.M. Stoltz **1229**

Clarke, S.
The effect of protein modification reagents on the chemotactic response in *Salmonella typhimurium*
Steven Clarke and D.E. Koshland, Jr. **1331**

Colter, J.S.
Studies of two temperature-sensitive mutants of Mengo virus
Patrick W.K. Lee and John S. Colter **902**

Colvin, J.R.
Additional properties of a soluble polymer of glucose from cultures of *Acetobacter xylinum*
J. Ross Colvin, L.C. Sowden, V. Daoust, and Malcolm Perry **1284**

Connell, G.E.
The amino acid sequences of the three heavy chain constant region domains of a human IgG2 myeloma protein
George E. Connell, Dorothy M. Parr, and Theo Hofmann **758**

Cornatzer, W.E.
Relationship between tissue levels of *S*-adenosylmethionine, *S*-adenosylhomocysteine, and transmethylation reactions
Dennis R. Hoffman, William E. Cornatzer, and John A. Duerre **56**

Crine, P.
From β-lipotropin to β-endorphin and 'pro-opio-melanocortin'
M. Chrétien, S. Benjannet, F. Gossard, C. Gianoulakis, P. Crine, M. Lis, and N.G. Seidah **1111**

Cuming, A.C.
Wheat embryo ribonucleates. XIV. Mass isolation of mRNA from wheat germ and comparison of its translational capacity with that of mRNA from imbibing wheat embryos
A.C. Cuming, T.D. Kennedy, and B.G. Lane **1170**

Daoust, V.
Additional properties of a soluble polymer of glucose from cultures of *Acetobacter xylinum*
J. Ross Colvin, L.C. Sowden, V. Daoust, and Malcolm Perry **1284**

Davies, P.L.
Double-stranded protamine cDNA: synthesis and characterization
Peter L. Davies, Gordon H. Dixon, and Achilles Dugaiczyk **259**

D'Costa, M.A.
Low density lipoprotein binding, internalization, and degradation in human adipose cells
A. Angel, M.A. D'Costa, and R. Yuen **578**

D'Costa, M.A.
Inhibition of rat and human adipocyte adenylate cyclase in the antilipolytic action of insulin, clofibrate, and nicotinic acid
Mario A. D'Costa, Winifreda Asico, and Aubie Angel **1058**

Delbaere, L.T.J.
The 2.8 Å resolution structure of *Streptomyces griseus* protease B and its homology with α-chymotrypsin and *Streptomyces griseus* protease A
Louis T.J. Delbaere, Gary D. Brayer, and Michael N.G. James **135**

Demoliou, C.
The kinetics of *in vitro* reoxidation and reduction of the inter heavy–light chain disulfide bond in an ususual murine immunoglobulin G myeloma protein lacking inter-heavy chain disulfide bonds
Maire E. Percy, Lebe Chang, Catherine Demoliou, and Reuben Baumal **279**

Denes, A.S.
Thermally induced changes in reconstituted and membranous cytochrome *c* oxidase
A.S. Denes and N.Z. Stanacev **238**

Denhardt, D.T.
The *rep* mutation. VI. Purification and properties of the *Escherichia coli rep* protein, DNA helicase III
SEISHI TAKAHASHI, CHRISTIAN HOURS, ALAN CHU, and DAVID T. DENHARDT 855

Desautels, M.
Roles of noradrenaline and protein synthesis in the cold-induced increase in purine nucleotide binding by rat brown adipose tissue mitochondria
MICHEL DESAUTELS and JEAN HIMMS-HAGEN 968

Dickie, P.
Purification and characterization of membrane-bound fumarate reductase from anaerobically grown *Escherichia coli*
PETER DICKIE and JOEL H. WEINER 813

Dionne, F.T.
Interaction of spironolactone with rat skin androgen receptor
ANDRÉE BOISSELLE, FRANCE T. DIONNE, and ROLAND R. TREMBLAY 1042

D'Iorio, A.
On the characteristics of mitochondrial monoamine oxidase in pancreas and adipose tissues from genetically obese mice
J.H. TONG, A. D'IORIO, and C.KANDASWAMI 197

D'Iorio, A.
On hepatic mitochondrial monoamine oxidase activity in lipid deficiency
C. KANDASWAMI and A. D'IORIO 588

Dixon, G.H.
Double-stranded protamine cDNA: synthesis and characterization
PETER L. DAVIES, GORDON H. DIXON, and ACHILLES DUGAICZYK 259

Dixon, G.H.
Protamine messenger RNA: partial purification and characterization of a heterogeneous family of polyadenylated messenger components
KOSTAS IATROU, LASHITEW GEDAMU, and GORDON H. DIXON 945

Dodson, E.J.
Structural relationships in the two-zinc insulin hexamer
E.J. DODSON, G.G. DODSON, D.C. HODGKIN, and C.D. REYNOLDS 469

Dodson, G.G.
Structural relationships in the two-zinc insulin hexamer
E.J. DODSON, G.G. DODSON, D.C. HODGKIN, and C.D. REYNOLDS 469

Doolittle, W.F.
Cyanobacterial evolution: results of 16S ribosomal ribonucleic acid sequence alalyses
L. BONEN, W.F. DOOLITTLE, and G.E. FOX 879

Dorrington, K.J.
The amino acid sequence of porcine intestinal calcium-binding protein
THEO HOFMANN, MICHIKO KAWAKAMI, ANTHONY J.W. HITCHMAN, JOAN E. HARRISON, and KEITH J. DORRINGTON 737

Drouin, J.N.
Synthesis of peptides by the solid-phase method. IV. Des-Arg^9-bradykinin and analogs
S. ST-PIERRE, P. GAUDREAU, J.N. DROUIN, D. REGOLI, and S. LEMAIRE 1084

Drujan, B.D.
Histochemical and cytochemical localization of acetylcholinesterase in retina and optic tectum of teleost fish
BORIS D. DRUJAN, J.M. DÍAZ BORGES, and M. BRZIN 43

Duckworth, H.W.
The interactions of adenylates with allosteric citrate synthase
MICHAEL M. TALGOY and HARRY W. DUCKWORTH 385

Duckworth, H.W.
The reactions of *Escherichia coli* citrate synthase with the sulfhydryl reagents 5,5′-dithiobis-(2-nitrobenzoic acid) and 4,4′-dithiodipyridine
MICHAEL M. TALGOY, ALEXANDER W. BELL, and HARRY W. DUCKWORTH 822

Duckworth, H.W.
Erratum: The interactions of adenylates with allosteric citrate synthase
MICHAEL M. TALGOY and HARRY W. DUCKWORTH 1110

Duerre, J.A.
Relationship between tissue levels of *S*-adenosylmethionine, *S*-adenosylhomocysteine, and transmethylation reactions
DENNIS R. HOFFMAN, WILLIAM E. CORNATZER, and JOHN A. DUERRE 56

Duerre, J.A.
Erratum: *S*-Adenosylhomocysteine metabolism in various species
R.D. WALKER and J.A. DUERRE 65

Dugaiczyk, A.
Double-stranded protamine cDNA: synthesis and characterization
PETER L. DAVIES, GORDON H. DIXON, and ACHILLES DUGAICZYK 259

Dugas, H.
Selective spin-labelling of the ribosomal proteins of 70S ribosomes from *Escherichia coli*
H. DUGAS, A. RODRIGUEZ, and N. BRISSON 1407

Dunford, H.B.
Spectral studies of human erythrocyte catalase
MONICA PALCIC and H. BRIAN DUNFORD 321

Dunford, H.B.
Horseradish peroxidase. XXXIV. Oxidation of compound II to I by periodate and inorganic anion radicals
A. NADEZHDIN and H.B. DUNFORD 1080

Dyer, T.A.
Analysis of a 5S RNA-protein complex isolated from the ribosomes of rye embryos
TRISTAN A. DYER and SAUL ZALIK 1400

Edwards, G.E.
Oxidation of reduced nicotinamide adenine dinucleotide phosphate by plant mitochondria
GEOFFREY P. ARRON and GERALD E. EDWARDS 1392

Elahi, E.
Effects of ribosomal wash factors and spermidine on endogenous and exogenous mRNA stimulated protein synthesis in the wheat germ cell-free system
ELAHE ELAHI and GEORGE H. JONES **429**

Emond, D.
Distinctive properties of glutamine synthetase from the cyanobacterium *Anacystis nidulans*
DIANE EMOND, NORMAND RONDEAU, and R.J. CEDERGREN **843**

Enns, C.A.
Aspartate transcarbamoylase: loss of homotropic but not heterotropic interactions upon modification of the catalytic subunit with a bifunctional reagent
WILLIAM W.-C. CHAN and CAROLINE A. ENNS **798**

Fairand, A.
Evolution et controle de l'activité de l'amylo-1,6-glucosidase du foie foetal de rat
R. VAILLANT, P. BOURGEOIS-VICTOR et A. FAIRAND **1245**

Falconer, A.D.
Effects of dietary carbohydrate on cholesterol metabolism in rats and rabbits
A.D. FALCONER and K.K. CARROLL **645**

Farren, S.B.
Lipid requirements for the aggregation of CTP: phosphocholine cytidylyl transferase in rat liver cytosol
PATRICK C. CHOY, S. BLAKE FARREN, and DENNIS E. VANCE **605**

Fletterick, R.J.
Analysis of the surface topography of glycogen phosphorylase *a*: implications for metabolic interconversion and regulatory mechanisms
R.J. FLETTERICK, S. SPRANG, and N.B. MADSEN **789**

Fliss, H.
2,3-Butanedione as a photosensitizing agent: application to α-amino acids and α-chymotrypsin
HENRY FLISS and THAMMAIAH VISWANATHA **1267**

Fox, G.E.
Cyanobacterial evolution: results of 16S ribosomal ribonucleic acid sequence alalyses
L. BONEN, W.F. DOOLITTLE, and G.E. FOX **879**

Franco-Saenz, R.
A model for the study of the oral administration of peptide hormones
MURRAY SAFFRAN, ROBERTO FRANCO-SAENZ, ANN KONG, DEMETRIOS PAPAHADJOPOULOS, and FRANCIS SZOKA **548**

Fraser, A.D.E.
Effect of carbon sources on the rates of cyclic AMP synthesis, excretion, and degradation, and the ability to produce β-galactosidase in *Escherichia coli*
ANN D.E. FRASER and HIROSHI YAMAZAKI **1073**

Fraser, A.D.E.
In vivo preparation of [^{32}P]cAMP and thin-layer chromatography of cAMP-related compounds
HIROSHI YAMAZAKI, KWOK-LUEN LEUNG, and ANN D.E. FRASER **1281**

Fraser, M.J.
The major intracellular alkaline deoxyribonuclease activities expressed in wild-type and *Rec*-like mutants of *Neurospora crassa*
T.Y.-K. CHOW and M.J. FRASER **889**

Freedman, M.H.
A rapid technique for measuring calcium uptake in mitogen-induced T and B lymphocytes
M.H. FREEDMAN and N.R. KHAN **1344**

Freeman, K.B.
Binding of mitochondrial malate dehydrogenase to mitoplasts
PAULA M. STRASBERG, KEITH A. WEBSTER, HASMUKH V. PATEL, and KARL B. FREEMAN **662**

Fritz, I.B.
Myoinositol biosynthesis by Sertoli cells, and levels of myoinositol biosynthetic enzymes in testis and epididymis
RANGA ROBINSON and IRVING B. FRITZ **962**

Futcher, A.B.
A novel assay for endonucleases acting at apurinic sites and its use in measuring AP endonuclease activity in repair-deficient mutants of *Saccharomyces cerevisiae*
A. BRUCE FUTCHER and A. RICHARD MORGAN **932**

Galella, G.
Stability of microtubule protein over the pH range: 6.9–9.5
G. GALELLA and DAVID B. SMITH **1368**

Galley, W.C.
Phosphorescence evidence for the role of solvent–protein interactions in the energetics of conformational flexibility of liver alcohol dehydrogenase
STEPHEN KISHNER, ELLY TREPMAN, and WILLIAM C. GALLEY **1299**

Ganoza, M.C.
Purification of factor EF-P, a protein that stimulates peptide-bond synthesis with certain aminoacyl-tRNA analogues
BERNARD R. GLICK, ROBERT M. GREEN, and M. CLELIA GANOZA **749**

Gaudreau, P.
Synthesis of peptides by the solid-phase method. IV. Des-Arg^9-bradykinin and analogs
S. ST-PIERRE, P. GAUDREAU, J.N. DROUIN, D. REGOLI, and S. LEMAIRE **1084**

Gedamu, L.
Protamine messenger RNA: partial purification and characterization of a heterogeneous family of polyadenylated messenger components
KOSTAS IATROU, LASHITEW GEDAMU, and GORDON H. DIXON **945**

Gerdes, P.A.
Metabolism of oligo(A) tracts and association of oligo(A)(+)RNA with polysomes in molluscan embryos
PAMELA A. GERDES and GERALD M. KIDDER **1305**

Gianoulakis, C.
From β-lipotropin to β-endorphin and 'pro-opio-melanocortin'
M. CHRÉTIEN, S. BENJANNET, F. GOSSARD, C. GIANOULAKIS, P. CRINE, M. LIS, and N.G. SEIDAH **1111**

Giroux, J.J.
The interaction of polymeric viologens with hydrogenases from *Desulfovibrio desulfuricans* and *Clostridium pasteurianum*
BERNARD R. GLICK, WILLIAM G. MARTIN, J. JEAN GIROUX, and ROSS E. WILLIAMS **1093**

Glick, B.R.
Purification of factor EF-P, a protein that stimulates peptide-bond synthesis with certain aminoacyl-tRNA analogues
BERNARD R. GLICK, ROBERT M. GREEN, and M. CLELIA GANOZA **749**

Glick, B.R.
The interaction of polymeric viologens with hydrogenases from *Desulfovibrio desulfuricans* and *Clostridium pasteurianum*
BERNARD R. GLICK, WILLIAM G. MARTIN, J. JEAN GIROUX, and ROSS E. WILLIAMS **1093**

Gossard, F.
From β-lipotropin to β-endorphin and 'pro-opio-melanocortin'
M. CHRÉTIEN, S. BENJANNET, F. GOSSARD, C. GIANOULAKIS, P. CRINE, M. LIS, and N.G. SEIDAH **1111**

Gougoux, A.
Characteristics of glutamine metabolism by rat kidney tubules: a carbon and nitrogen balance
PATRICK VINAY, GUY LEMIEUX, and ANDRÉ GOUGOUX **346**

Gray, M.W.
The ribosomal RNA of the trypanosomatid protozoan *Crithidia fasciculata*: physical characteristics and methylated sequences
M.W. GRAY **914**

Gray, N.C.C.
The deacylation of phosphatidylinositol by rat brain preparations
T.Y.P. SHUM, N.C.C. GRAY, and K.P. STRICKLAND **1359**

Green, M.K.
The stoichiometry and stability of the NADP complexes with manganese(II) ions as studied by electron paramagnetic resonance
M. KIRK GREEN and GEORGE KOTOWYCZ **995**

Green, R.M.
Purification of factor EF-P, a protein that stimulates peptide-bond synthesis with certain aminoacyl-tRNA analogues
BERNARD R. GLICK, ROBERT M. GREEN, and M. CLELIA GANOZA **749**

Gruda, J.
Effect of phalloidin on actin proteolysis as measured by viscometry and fluorimetry
JEAN-MARC POLLENDER and JULIAN GRUDA **49**

Hahn, P.
Hepatic 3-hydroxy-3-methyl-glutaryl-CoA reductase response to litter size in suckling rats
PETER HAHN and BRIAN L. WALKER **1216**

Haines, D.S.M.
The influence of dietary choline intake upon liver ethanolamine metabolism
S.TOKMAKJIAN and D.S.M. HAINES **566**

Halperin, M.L.
Stimulation of glucose transport in rat adipocytes by calcium
WAYNE M. TAYLOR, LENA HAU, and MITCHELL L. HALPERIN **692**

Harrison, J.E.
The amino acid sequence of porcine intestinal calcium-binding protein
THEO HOFMANN, MICHIKO KAWAKAMI, ANTHONY J.W. HITCHMAN, JOAN E. HARRISON, and KEITH J. DORRINGTON **737**

Hatton, M.W.C.
Chromatography of heparin on Sepharose–lysine: molecular size fractionation and its relevance to thrombin and antithrombin III binding
M.W.C. HATTON, L.R. BERRY, H. KAUR, A. KOJ, and E. REGOECZI **1183**

Hau, L.
Stimulation of glucose transport in rat adipocytes by calcium
WAYNE M. TAYLOR, LENA HAU, and MITCHELL L. HALPERIN **692**

Hemon, P.
Changes induced by cold adaptation in the brown adipose tissue from several species of rodents, with special reference to the mitochondrial components
D. RICQUIER, G. MORY and P. HEMON **1262**

Henderson, J.F.
Relationships among purine nucleoside metabolism, adenosine triphosphate catabolism, and glycolysis in human erythrocytes
J. FRANK HENDERSON, GEORGE ZOMBOR, PHILIP W. BURRIDGE, GEORGE BARANKIEWICZ, and CAMILLA M. SMITH **873**

Hew, C.L.
Cell-free synthesis of rat liver zinc-thioneins
CHOY L.HEW and PETER E. PENNER **1030**

Himms-Hagen, J.
Roles of noradrenaline and protein synthesis in the cold-induced increase in purine nucleotide binding by rat brown adipose tissue mitochondria
MICHEL DESAUTELS and JEAN HIMMS-HAGEN **968**

Hincke, M.T.
The utility of the nitrotyrosine chromophore as a spectroscopic probe in troponin C and modulator protein
WILLIAM D. MCCUBBIN, MAXWELL T. HINCKE, and CYRIL M. KAY **15**

Hincke, M.T.
The interaction between beef cardiac troponin T and troponin I as demonstrated by ultraviolet absorption difference spectroscopy, circular dichroism, and gel filtration
M.T. HINCKE, W.D. MCCUBBIN, and C.M. KAY **768**

Hitchman, A.J.W.
The amino acid sequence of porcine intestinal calcium-binding protein
THEO HOFMANN, MICHIKO KAWAKAMI, ANTHONY J.W. HITCHMAN, JOAN E. HARRISON, and KEITH J. DORRINGTON **737**

Hodgkin, D.C.
Structural relationships in the two-zinc insulin hexamer
E.J. DODSON, G.G. DODSON, D.C. HODGKIN, and C.D. REYNOLDS **469**

Hoffman, D.R.
Relationship between tissue levels of *S*-adenosylmethionine, *S*-adenosylhomocysteine, and transmethylation reactions
DENNIS R. HOFFMAN, WILLIAM E. CORNATZER, and JOHN A. DUERRE 56

Hofmann, C.
Mode of uptake and degradation of ^{125}I-labelled insulin by isolated hepatocytes and H4 hepatoma cells
S. TERRIS, C. HOFMANN, and D.F. STEINER 459

Hofmann, T.
The amino acid sequence of porcine intestinal calcium-binding protein
THEO HOFMANN, MICHIKO KAWAKAMI, ANTHONY J.W. HITCHMAN, JOAN E. HARRISON, and KEITH J. DORRINGTON 737

Hofmann, T.
The amino acid sequences of the three heavy chain constant region domains of a human IgG2 myeloma protein
GEORGE E. CONNELL, DOROTHY M. PARR, and THEO HOFMANN 758

Hollenberg, M.D.
Insulin receptors in transformed fibroblasts and in adipocytes: a comparative study
J.M. MATURO III and M.D. HOLLENBERG 497

Holten, D.
Distribution of the multiple molecular forms of glucose-6-phosphate dehydrogenase in different physiological states
HSIAO-LIN CHANG, DAROLD HOLTEN, and ROM KARIN 396

Homyk, M.
Photooxidation of NADH by 2,3-butanedione: a potential source of error in studies on active site arginyl residues
MONA HOMYK and P.D. BRAGG 977

Houlihan, P.A.
The identification of α-adrenergic receptors in adipose tissue by [^{3}H]dihydroergocryptine binding
NICOLE BÉGIN-HEICK, PAULEEN A. HOULIHAN, and JOSÉ SIGOUIN 1047

Hours, C.
The *rep* mutation. VI. Purification and properties of the *Escherichia coli rep* protein, DNA helicase III
SEISHI TAKAHASHI, CHRISTIAN HOURS, ALAN CHU, and DAVID T. DENHARDT 855

Huber, R.E.
The localization of honey bee thorax trehalase
N.R. BRANDT and R.E. HUBER 145

Huber, R.E.
The kinetic parameters of trehalase in whole and disrupted mitochondrial preparations from two insects with asynchronous muscle
N.R. BRANDT, K.L. HURLBURT, and R.E. HUBER 1210

Huner, N.P.A.
Changes in the net charge and subunit properties of ribulose bisphosphate carboxylase–oxygenase during cold hardening of Puma rye
N.P.A. HUNER and F.D.H. MACDOWALL 155

Huner, N.P.A.
The effects of low temperature acclimation of winter rye on catalytic properties of its ribulose bisphosphate carboxylase–oxygenase
N.P.A. HUNER and F.D.H. MACDOWALL 1036

Hunter, N.P.
Products of mitochondrial protein synthesis in *Tetrahymena*
PAUL G. YOUNG and NEIL P. HUNTER 314

Hurlburt, K.L.
The kinetic parameters of trehalase in whole and disrupted mitochondrial preparations from two insects with asynchronous muscle
N.R. BRANDT, K.L. HURLBURT, and R.E. HUBER 1210

Hurley, M.C.
The effects of prostaglandins on secretion of glucagon and insulin by the perfused rat pancreas
J.O. AKPAN, M.C. HURLEY, S. PEK, and W.E.M. LANDS 540

Iatrou, K.
Protamine messenger RNA: partial purification and characterization of a heterogeneous family of polyadenylated messenger components
KOSTAS IATROU, LASHITEW GEDAMU, and GORDON H. DIXON 945

Ikeman, R.L.
Isolation of a human B lymphocyte membrane protein with Ia-like properties
A.K. SULLIVAN, L.M. JERRY, R.L. IKEMAN, R.J. MACCARI, H. LI THI, and C. SYLVESTER 21

James, M.N.G.
The 2.8 Å resolution structure of *Streptomyces griseus* protease B and its homology with α-chymotrypsin and *Streptomyces griseus* protease A
LOUIS T.J. DELBAERE, GARY D. BRAYER, and MICHAEL N.G. JAMES 135

Jerry, L.M.
Isolation of a human B lymphocyte membrane protein with Ia-like properties
A.K. SULLIVAN, L.M. JERRY, R.L. IKEMAN, R.J. MACCARI, H. LI THI, and C. SYLVESTER 21

John, M.
Purification and some properties of a five endo-1,4-β-D-xylanases and a β-D-xylosidase produced by a strain of *Aspergillus niger*
MICHAEL JOHN, BERND SCHMIDT, and JURGEN SCHMIDT 125

Johnson, D.I.
Inhibition of carboxypeptidase A catalyzed peptide hydrolysis by 3-phenylpropanoate at activating and nonactivating substrate concentrations
ROGER POORMAN, MARIA KUO, DOUGLAS I. JOHNSON, SHARON LIN, and JOHN F. SEBASTIAN 357

Jones, D.E.
Phospholipids of the differentiating bacterium *Caulobacter crescentus*
DARRELL E. JONES and JOSEPH DONALD SMITH 424

Jones, G.H.
Effects of ribosomal wash factors and spermidine on endogenous and exogenous mRNA stimulated protein synthesis in the wheat germ cell-free system
ELAHE ELAHI and GEORGE H. JONES 429

Jukes, T.H.
Dr. Best, insulin, and molecular evolution
THOMAS H. JUKES 455

Kakis, G.
Identification of lipoprotein X-like particles in rat plasma following Intralipid infusion
W.C. BRECKENRIDGE, G. KAKIS, and A.KUKSIS 72

Kako, K.J.
Acylglycerol structure of mustard seed oil and of cardiac lipids of rats during dietary lipidosis
J.J. MYHER, A. KUKSIS, S.C. VASDEV, and K.J. KAKO 1315

Kalant, N.
Multiple effects of serum low-density lipoprotein on cultured human fibroblasts
M.J. SPAIN, L.O. WOSU, and N. KALANT 684

Kallai-Sanfaçon, M.A.
An approach to measuring the *in vivo* transformation of glycerol to a very low density lipoprotein triglyceride
M.A. KALLAI-SANFAÇON, K.H. NORWICH, and G. STEINER 613

Kandaswami, C.
On the characteristics of mitochondrial monoamine oxidase in pancreas and adipose tissues from genetically obese mice
J.H. TONG, A. D'IORIO, and C.KANDASWAMI 197

Kandaswami, C.
On hepatic mitochondrial monoamine oxidase activity in lipid deficiency
C. KANDASWAMI and A. D'IORIO 588

Kaplan, H.
Unusual chemical properties of the amino groups of insulin: implications for structure–function relationship
MARLA G. SHEFFER and HARVEY KAPLAN 489

Kaplan, J.G.
Microtubules, colchicine, and lymphocyte blastogenesis
CHRISTOPHER E. RUDD, KEM A. ROGERS, DAVID L. BROWN, and J. GORDIN KAPLAN 673

Karin, R.
Distribution of the multiple molecular forms of glucose-6-phosphate dehydrogenase in different physiological states
HSIAO-LIN CHANG, DAROLD HOLTEN, and ROM KARIN 396

Kates, M.
Chemical synthesis of *sn*-3-phosphatidyl sulfocholine, a sulfonium analog of lecithin
PAUL-ALAIN TREMBLAY and MORRIS KATES 595

Kates, M.
Erratum: Chemical synthesis of *sn*-3-phosphatidyl sulfocholine, a sulfonium analog of lecithin
PAUL-ALAIN TREMBLAY and MORRIS KATES 1250

Kaur, H.
Chromatography of heparin on Sepharose–lysine: molecular size fractionation and its relevance to thrombin and antithrombin III binding
M.W.C. HATTON, L.R. BERRY, H. KAUR, A. KOJ, and E. REGOECZI 1183

Kawakami, M.
The amino acid sequence of porcine intestinal calcium-binding protein
THEO HOFMANN, MICHIKO KAWAKAMI, ANTHONY J.W. HITCHMAN, JOAN E. HARRISON, and KEITH J. DORRINGTON 737

Kay, C.M.
The utility of the nitrotyrosine chromophore as a spectroscopic probe in troponin C and modulator protein
WILLIAM D. MCCUBBIN, MAXWELL T. HINCKE, and CYRIL M. KAY 15

Kay, C.M.
Circular dichroism studies of native and chemically modified Ca^{2+}-dependent protein modulator
MICHAEL WALSH, FRITS C. STEVENS, KIMIO OIKAWA, and CYRIL M. KAY 267

Kay, C.M.
The interaction between beef cardiac troponin T and troponin I as demonstrated by ultraviolet absorption difference spectroscopy, circular dichroism, and gel filtration
M.T. HINCKE, W.D. MCCUBBIN, and C.M. KAY 768

Kay, W.W.
Purification and properties of a citrate-binding transport component, the C protein of *Salmonella typhimurium*
G.D. SWEET, J.M. SOMERS, and W.W. KAY 710

Keeley, F.W.
The synthesis of soluble and isoluble elastin in chicken aorta as a function of development and age. Effect of a high cholesterol diet
F.W. KEELEY 1273

Kennedy, T.D.
Wheat embryo ribonucleates. XIII. Methyl-substituted nucleoside constituents and 5'-terminal dinucleotide sequences in bulk poly(A)- rich RNA from imbibing wheat embryos
T.D. KENNEDY and B.G. LANE 927

Kennedy, T.D.
Wheat embryo ribonucleates. XIV. Mass isolation of mRNA from wheat germ and comparison of its translational capacity with that of mRNA from imbibing wheat embryos
A.C. CUMING, T.D. KENNEDY, and B.G. LANE 1170

Kessous, A.
Presence of herpes simplex virus type 2 DNA in hamster cells oncogenically transformed by ultraviolet-inactivated virus
V. BIBOR-HARDY, A. KESSOUS, and R. SIMARD 867

Khan, N.R.
A rapid technique for measuring calcium uptake in mitogen-induced T and B lymphocytes
M.H. FREEDMAN and N.R. KHAN 1344

Khandelwal, R.L.
The properties of purified low molecular weight phosphoprotein phosphatase from rabbit heart
RAMJI L. KHANDELWAL 1337

Kidder, G.M.
Metabolism of oligo(A) tracts and association of oligo(A)(+)RNA with polysomes in molluscan embryos
PAMELA A. GERDES and GERALD M. KIDDER **1305**

Kishner, S.
Phosphorescence evidence for the role of solvent–protein interactions in the energetics of conformational flexibility of liver alcohol dehydrogenase
STEPHEN KISHNER, ELLY TREPMAN, and WILLIAM C. GALLEY **1299**

Kisilevsky, R.
Protein kinase activity and ribosome phosphorylation in ethionine-treated rats
MARGARET A. TRELOAR and ROBERT KISILEVSKY **209**

Koj, A.
Chromatography of heparin on Sepharose–lysine: molecular size fractionation and its relevance to thrombin and antithrombin III binding
M.W.C. HATTON, L.R. BERRY, H. KAUR, A. KOJ, and E. REGOECZI **1183**

Kong, A.
A model for the study of the oral administration of peptide hormones
MURRAY SAFFRAN, ROBERTO FRANCO-SAENZ, ANN KONG, DEMETRIOS PAPAHADJOPOULOS, and FRANCIS SZOKA **548**

Kornblatt, M.J.
Synthesis and turnover of sulfogalactoglycerolipid, a membrane lipid, during spermatogenesis
M.J. KORNBLATT **255**

Korri, K.K.
Purification of dihydropterin reductase using immobilized Cibacron Blue
MICHAEL M. CHAUVIN, KARL K. KORRI, ANNE TIRPAK, ROBERT C. SIMPSON, and K.G. SCRIMGEOUR **178**

Koshland, D.E., Jr.
The effect of protein modification reagents on the chemotactic response in *Salmonella typhimurium*

Changes induced by cold adaptation in the brown adipose tissue from several species of rodents, with special reference to the mitochondrial components
D. Ricquier, G. Mory and P. Hemon **1262**

Moscarello, M.A.
The effect of wheat germ agglutinin on sialyl and galactosyltransferases of rat liver Golgi membranes
M.M. Mitranic, J.M. Sturgess, and
M.A. Moscarello **1008**

Murray, R.K.
Suitability of L-[^{35}S]methionine for studying the biosynthesis of the polypeptides of mouse liver endoplasmic reticulum membrane fractions *in vivo*
Monique Behar-Bannelier, Rajendra N. Sharma, and
Robert K. Murray **625**

Myher, J.J.
Stereospecific analysis of triacylglycerols via racemic phosphatidylcholines and phospholipase C
J.J. Myher and A. Kuksis **117**

Myher, J.J.
Resolution of saturated and unsaturated 5 β-cholanoic acids by gas–liquid and thin-layer chromatography
P. Child, A. Kuksis, and J.J. Myher **639**

Myher, J.J.
Acylglycerol structure of mustard seed oil and of cardiac lipids of rats during dietary lipidosis
J.J. Myher, A. Kuksis, S.C. Vasdev, and K.J. Kako **1315**

Nadezhdin, A.
Horseradish peroxidase. XXXIV. Oxidation of compound II to I by periodate and inorganic anion radicals
A. Nadezhdin and H.B. Dunford **1080**

Narasimban, S.
A structural basis for four distinct elution profiles on concanavalin A – Sepharose affinity chromatography of glycopeptides
Saroja Narasimban, James R. Wilson, Eva Martin, and
Harry Schachter **83**

Narindrasorasak, S.
The cyclic adenosine monophosphate phosphodiesterases of myoblasts, fibroblasts, and their somatic cell hybrids
E.H. Ball, S.Narindrasorasak, and B.D. Sanwal **1220**

Nerozzi, F.M.
Studies on isocitrate lyase isolated from *Lupinus* cotyledons
P.Vanni, M.T. Vincenzini, F.M. Nerozzi, and
S.P. Sinha **1131**

Ngo, T.T.
Kinetics of acetylcholinesterase immobilized on polyethylene tubing
T.T. Ngo, K.J. Laidler, and C.F. Yam **1200**

Noble, J.S.
Isolation and translation *in vitro* of poly(A)+ RNA from the free-living nematode *Panagrellus silusiae*
J. Scott Noble and J. Pasternak **330**

Norwich, K.H.
An approach to measuring the *in vivo* transformation of glycerol to a very low density lipoprotein triglyceride
M.A. Kallai-Sanfaçon, K.H. Norwich, and
G. Steiner **613**

Oehlschlager, A.C.
The biosynthesis of the free sterols and sterol esters of *Neurospora crassa*
A.M. Pierce, H.D. Pierce, Jr., A.M. Unrau,
A.C. Oehlschlager, R.E. Subden and R.L. Renau **112**

Oehlschlager, A.C.
Azasterol inhibitors in yeast. Inhibition of the Δ^{24}-sterol methyltransferase and the 24-methylene sterol $\Delta^{24(28)}$-reductase in sterol mutants of *Saccharomyces cerevisiae*
A.M. Pierce, A.M. Unrau, A.C. Oehlschlager, and
R.A. Woods **201**

Oikawa, K.
Circular dichroism studies of native and chemically modified Ca^{2+}-dependent protein modulator
Michael Walsh, Frits C. Stevens, Kimio Oikawa, and
Cyril M. Kay **267**

Oravec, M.
The effect of growth hormone on the metabolism of a tryptophan load in the liver and brain of hypophysectomized rats
Simon N. Young and Michael Oravec **517**

Pagé, M.
A rapid method for the purification of antibody–enzyme conjugates
M. Pagé, M. Audette, and M. Caron **286**

Painter, R.H.
Electron microscopy of serum amyloid protein in the presence of calcium; alternative forms of assembly of pentagonal molecules in two-dimensional lattices
L. Pinteric and R.H. Painter **727**

Palcic, M.
Spectral studies of human erythrocyte catalase
Monica Palcic and H. Brian Dunford **321**

Papahadjopoulos, D.
A model for the study of the oral administration of peptide hormones
Murray Saffran, Roberto Franco-Saenz, Ann Kong,
Demetrios Papahadjopoulos, and Francis Szoka **548**

Parr, D.M.
The amino acid sequences of the three heavy chain constant region domains of a human IgG2 myeloma protein
George E. Connell, Dorothy M. Parr, and
Theo Hofmann **758**

Pasternak, J.
Isolation and translation *in vitro* of poly(A)+ RNA from the free-living nematode *Panagrellus silusiae*
J. Scott Noble and J. Pasternak **330**

Patel, H.V.
Binding of mitochondrial malate dehydrogenase to mitoplasts
Paula M. Strasberg, Keith A. Webster, Hasmukh V. Patel,
and Karl B. Freeman **662**

Patt, S.L.
Lysozyme catalysis: kinetics of the hydrolysis of cell wall oligosaccharides
KEN BOEKELHEIDE, STEVEN L. PATT, GREG WEISZ, JOHN H. BALDO, and BRIAN D. SYKE **785**

Pawagi, A.
Changes in the osmotic behaviour of phosphatidylcholine vesicles induced by interaction with polyamino acids
WILLY K. CHWANG, ASHA PAWAGI, and IAN M. CAMPBELL **302**

Pawagi, A.B.
Temperature-dependent interactions between poly-L-lysine and phosphatidylcholine vesicles
IAN M. CAMPBELL and ASHA B. PAWAGI **1099**

Pek, S.
The effects of prostaglandins on secretion of glucagon and insulin by the perfused rat pancreas
J.O. AKPAN, M.C. HURLEY, S. PEK, and W.E.M. LANDS **540**

Penner, P.E.
Proteolytic conversion of rat thymus DNA polymerase α to a more active form
P.E. PENNER **1026**

Penner, P.E.
Cell-free synthesis of rat liver zinc-thioneins
CHOY L.HEW and PETER E. PENNER **1030**

Percy, M.E.
The kinetics of *in vitro* reoxidation and reduction of the inter heavy-light chain disulfide bond in an ususual murine immunoglobulin G myeloma protein lacking inter-heavy chain disulfide bonds
MAIRE E. PERCY, LEBE CHANG, CATHERINE DEMOLIOU, and REUBEN BAUMAL **279**

Perry, M.
Additional properties of a soluble polymer of glucose from cultures of *Acetobacter xylinum*
J. ROSS COLVIN, L.C. SOWDEN, V. DAOUST, and MALCOLM PERRY **1284**

Peterman, B.F.
The effect of binding ions on the oxidation of horse heart ferrocytochrome *c*
B.F. PETERMAN and R.A. MORTON **372**

Pierce, A.M.
The biosynthesis of the free sterols and sterol esters of *Neurospora crassa*
A.M. PIERCE, H.D. PIERCE, JR., A.M. UNRAU, A.C. OEHLSCHLAGER, R.E. SUBDEN and R.L. RENAU **112**

Pierce, A.M.
Azasterol inhibitors in yeast. Inhibition of the Δ^{24}-sterol methyltransferase and the 24-methylene sterol $\Delta^{24(28)}$-reductase in sterol mutants of *Saccharomyces cerevisiae*
A.M. PIERCE, A.M. UNRAU, A.C. OEHLSCHLAGER, and R.A. WOODS **201**

Pierce, H.D., Jr.
The biosynthesis of the free sterols and sterol esters of *Neurospora crassa*
A.M. PIERCE, H.D. PIERCE, JR., A.M. UNRAU, A.C. OEHLSCHLAGER, R.E. SUBDEN and R.L. RENAU **112**

Pik, J.R.
Respiration-driven accumulation of C4 dicarboxylic acids by isolated membrane vesicles of *Paracoccus denitrificans*
JEANETTE R. PIK and HUGH G. LAWFORD **436**

Pinteric, L.
Electron microscopy of serum amyloid protein in the presence of calcium; alternative forms of assembly of pentagonal molecules in two-dimensional lattices
L. PINTERIC and R.H. PAINTER **727**

Pollender, J.-M.
Effect of phalloidin on actin proteolysis as measured by viscometry and fluorimetry
JEAN-MARC POLLENDER and JULIAN GRUDA **49**

Poorman, R.
Inhibition of carboxypeptidase A catalyzed peptide hydrolysis by 3-phenylpropanoate at activating and nonactivating substrate concentrations
ROGER POORMAN, MARIA KUO, DOUGLAS I. JOHNSON, SHARON LIN, and JOHN F. SEBASTIAN **357**

Racker, E.
Components and mechanism of action of ATP-driven proton pumps
MARCELO ALFONZO and EFRAIM RACKER **1351**

Rae, P.A.
Evaluation of receptor function in ACTH-responsive and ACTH-insensitive adrenal tumor cells
PATRICIA A. RAE, JENNIVINE TSAO, and BERNARD P. SCHIMMER **509**

Rathbone, M.P.
The effect of membrane cholesterol depletion upon erythrocyte membrane-bound enzymes
J.D. VICKERS and M.P. RATHBONE **1144**

Redman, L.W.
Immunological and biological activities of fragments and analogs of bradykinin
L.W. REDMAN, D. REGOLI, and E. RENO TUSTANOFF **529**

Regeoczi, E.
Chromatography of heparin on Sepharose-lysine: molecular size fractionation and its relevance to thrombin and antithrombin III binding
M.W.C. HATTON, L.R. BERRY, H. KAUR, A. KOJ, and E. REGOECZI **1183**

Regoli, D.
Immunological and biological activities of fragments and analogs of bradykinin
L.W. REDMAN, D. REGOLI, and E. RENO TUSTANOFF **529**

Regoli, D.
Synthesis of peptides by the solid-phase method. IV. Des-Arg^9-bradykinin and analogs
S. ST-PIERRE, P. GAUDREAU, J.N. DROUIN, D. REGOLI, and S. LEMAIRE **1084**

Renaud, R.L.
The biosynthesis of the free sterols and sterol esters of *Neurospora crassa*
A.M. PIERCE, H.D. PIERCE, JR., A.M. UNRAU, A.C. OEHLSCHLAGER, R.E. SUBDEN and R.L. RENAU **112**

Reynolds, C.D.
Structural relationships in the two-zinc insulin hexamer
E.J. Dodson, G.G. Dodson, D.C. Hodgkin, and C.D. Reynolds **469**

Ricquier, D.
Changes induced by cold adaptation in the brown adipose tissue from several species of rodents, with special reference to the mitochondrial components
D. Ricquier, G. Mory and P. Hemon **1262**

Roberge, A.G.
Biochemical properties and kinetic parameters of dihydroxyphenylalanine – 5-hydroxytryptophan decarboxylase in brain, liver, and adrenals of cat
Sylvie Bouchard and Andrée G. Roberge **1014**

Robinson, R.
Myoinositol biosynthesis by Sertoli cells, and levels of myoinositol biosynthetic enzymes in testis and epididymis
Ranga Robinson and Irving B. Fritz **962**

Rodriguez, A.
Selective spin-labelling of the ribosomal proteins of 70S ribosomes from *Escherichia coli*
H. Dugas, A. Rodriguez, and N. Brisson **1407**

Rogers, K.A.
Microtubules, colchicine, and lymphocyte blastogenesis
Christopher E. Rudd, Kem A. Rogers, David L. Brown, and J. Gordin Kaplan **673**

Roncari, D.A.K.
Enhancement of microsomal phosphatidate phosphohydrolase and diacylglycerol acyltransferase activity by insulin during growth of rat adipocyte precursors in culture
Daniel A.K. Roncari, Esther Y.W. Mack, and Dominic K. Yip **573**

Rondeau, N.
Distinctive properties of glutamine synthetase from the cyanobacterium *Anacystis nidulans*
Diane Emond, Normand Rondeau, and R.J. Cedergren **843**

Rosenzweig, S.A.
Preparation of β-cells from fetal bovine pancreas: characterization of insulin biosynthetic activity
Steven A. Rosenzweig and Cecil C. Yip **480**

Rudd, C.E.
Microtubules, colchicine, and lymphocyte blastogenesis
Christopher E. Rudd, Kem A. Rogers, David L. Brown, and J. Gordin Kaplan **673**

Ruis, H.
The biosynthesis of catalase
Helmut Ruis **1122**

Saffran, M.
A model for the study of the oral administration of peptide hormones
Murray Saffran, Roberto Franco-Saenz, Ann Kong, Demetrios Papahadjopoulos, and Francis Szoka **548**

St-Pierre, S.
Synthesis of peptides by the solid-phase method. IV. Des-Arg^9-bradykinin and analogs
S. St-Pierre, P. Gaudreau, J.N. Drouin, D. Regoli, and S. Lemaire **1084**

Sanwal, B.D.
The cyclic adenosine monophosphate phosphodiesterases of myoblasts, fibroblasts, and their somatic cell hybrids
E.H. Ball, S.Narindrasorasak, and B.D. Sanwal **1220**

Schachter, H.
A structural basis for four distinct elution profiles on concanavalin A – Sepharose affinity chromatography of glycopeptides
Saroja Narasimban, James R. Wilson, Eva Martin, and Harry Schachter **83**

Schiller, P.W.
Conformational comparison of (Val5, Trp8)-angiotensin II and (Val4, Trp7)-angiotensin III by fluorescence measurements
Peter W. Schiller **402**

Schimmer, B.P.
Evaluation of receptor function in ACTH-responsive and ACTH-insensitive adrenal tumor cells
Patricia A. Rae, Jennivine Tsao, and Bernard P. Schimmer **509**

Schmidt, B.
Purification and some properties of a five endo-1,4-β-D-xylanases and a β-D-xylosidase produced by a strain of *Aspergillus niger*
Michael John, Bernd Schmidt, and Jurgen Schmidt **125**

Schmidt, J.
Purification and some properties of a five endo-1,4-β-D-xylanases and a β-D-xylosidase produced by a strain of *Aspergillus niger*
Michael John, Bernd Schmidt, and Jurgen Schmidt **125**

Scrimgeour, K.G.
Purification of dihydropterin reductase using immobilized Cibacron Blue
Michael M. Chauvin, Karl K. Korri, Anne Tirpak, Robert C. Simpson, and K.G. Scrimgeour **178**

Scrimgeour, K.G.
Nonspecific inhibition of dehydrogenases by folates: an artifact
K.G. Scrimgeour and Anne Tirpak **1176**

Scriver, C.R.
Renal adaptation to phosphate deprivation in the *Hyp* mouse with X-linked hypophosphatemia
H.S. Tenenhouse and C.R. Scriver **938**

Scriver, C.R.
Erratum: Renal adaptation to phosphate deprivation in the *Hyp* mouse with X-linked hypophosphatemia
H.S. Tenenhouse and C.R. Scriver **1416**

Seargeant, L.E.
Phosphoester specificity of purified human liver alkaline phosphatase
L.E. Seargeant and R.A. Stinson **1000**

Sebastian, J.F.
Inhibition of carboxypeptidase A catalyzed peptide hydrolysis by 3-phenylpropanoate at activating and nonactivating substrate concentrations
ROGER POORMAN, MARIA KUO, DOUGLAS I. JOHNSON, SHARON LIN, and JOHN F. SEBASTIAN **357**

See, Y.P.
Effect of thyrotropin on the posphorylation of thyroid chromosomal proteins
YEW PHEW SEE, G.N. BURROW, and C.C. LIEW **523**

Seidah N, .G.
From β-lipotropin to β-endorphin and 'pro-opio-melanocortin'
M. CHRÉTIEN, S. BENJANNET, F. GOSSARD, C. GIANOULAKIS, P. CRINE, M. LIS, and N.G. SEIDAH **1111**

Sells, B.H.
Influence of magnesium and polyamines on the reactivity of individual ribosomal subunit proteins to lactoperoxidase-catalyzed iodination
CHESTER J. MICHALSKI, STEPHEN M. BOYLE, and BRUCE H. SELLS **250**

Sells, B.H.
Isolation and characterization of the nonpolysomal cytoplasmic messenger ribonucleoprotein complexes of rat liver
JNANANKUR BAG and BRUCE H. SELLS **1051**

Sharma, R.N.
Suitability of L-[^{35}S]methionine for studying the biosynthesis of the polypeptides of mouse liver endoplasmic reticulum membrane fractions *in vivo*
MONIQUE BEHAR-BANNELIER, RAJENDRA N. SHARMA, and ROBERT K. MURRAY **625**

Sharma, S.K.
Affinity chromatography of *Ruta graveolens* L. *O*-methyltransferases. Studies demonstrating the potential of the technique in the mechanistic investigation of *O*-methyltransferases
SATISH K. SHARMA and STEWART A. BROWN **986**

Sheffer, M.G.
Unusual chemical properties of the amino groups of insulin: implications for structure-function relationship
MARLA G. SHEFFER and HARVEY KAPLAN **489**

Shugar, D.
Conformation of exocyclic amino groups in purines and pyrimidines: crystal structure and conformation of 1-methyl-N^4-hydroxycytosine hydrochloride
GEORGE I. BIRNBAUM, TADEUSZ KULIKOWSKI, and DAVID SHUGAR **308**

Shum, T.Y.P.
The deacylation of phosphatidylinositol by rat brain preparations
T.Y.P. SHUM, N.C.C. GRAY, and K.P. STRICKLAND **1359**

Sigouin, J.
The identification of α-adrenergic receptors in adipose tissue by [^{3}H]dihydroergocryptine binding
NICOLE BÉGIN-HEICK, PAULEEN A. HOULIHAN, and JOSÉ SIGOUIN **1047**

Simard, R.
Presence of herpes simplex virus type 2 DNA in hamster cells oncogenically transformed by ultraviolet-inactivated virus
V. BIBOR-HARDY, A. KESSOUS, and R. SIMARD **867**

Simpson, R.C.
Purification of dihydropterin reductase using immobilized Cibacron Blue
MICHAEL M. CHAUVIN, KARL K. KORRI, ANNE TIRPAK, ROBERT C. SIMPSON, and K.G. SCRIMGEOUR **178**

Singh, A.P.
The action of tributyltin chloride on the uptake of proline and glutamine by intact cells of *Escherichia coli*
A.P. SINGH and P.D. BRAGG **1376**

Singh, A.P.
The action of tributyltin chloride on energy-dependent transhydrogenation of NADP$^+$ by NADH in membranes of *Escherichia coli*
A.P. SINGH and P.D. BRAGG **1384**

Sinha, S.P.
Studies on isocitrate lyase isolated from *Lupinus* cotyledons
P.VANNI, M.T. VINCENZINI, F.M. NEROZZI, and S.P. SINHA **1131**

Smith, C.M.
Relationships among purine nucleoside metabolism, adenosine triphosphate catabolism, and glycolysis in human erythrocytes
J. FRANK HENDERSON, GEORGE ZOMBOR, PHILIP W. BURRIDGE, GEORGE BARANKIEWICZ, and CAMILLA M. SMITH **873**

Smith, D.B.
Stability of microtubule protein over the pH range: 6.9–9.5
G. GALELLA and DAVID B. SMITH **1368**

Smith, I.C.P.
Organization and dynamics of membrane lipids as determined by magnetic resonance spectroscopy
IAN C.P. SMITH **1**

Smith, J.D.
Phospholipids of the differentiating bacterium *Caulobacter crescentus*
DARRELL E. JONES and JOSEPH DONALD SMITH **424**

Somers, J.M.
Purification and properties of a citrate-binding transport component, the C protein of *Salmonella typhimurium*
G.D. SWEET, J.M. SOMERS, and W.W. KAY **710**

Sourkes, T.L.
Effect of heparin on the metabolism of putrescine *in vivo*
THEODORE L. SOURKES and KRYSTYNA MISSALA **959**

Sowden, L.C.
Additional properties of a soluble polymer of glucose from cultures of *Acetobacter xylinum*
J. ROSS COLVIN, L.C. SOWDEN, V. DAOUST, and MALCOLM PERRY **1284**

Spain, M.J.
Multiple effects of serum low-density lipoprotein on cultured human fibroblasts
M.J. SPAIN, L.O. WOSU, and N. KALANT **684**

Sprang, S.
Analysis of the surface topography of glycogen phosphorylase *a*: implications for metabolic interconversion and regulatory mechanisms
R.J. FLETTERICK, S. SPRANG, and N.B. MADSEN **789**

Stanacev, N.Z.
Erratum: Translocation of isomeric spin-labelled radioactive cytidinediphosphodiglycerides from isolated guinea pig liver microsomal to mitochondrial membranes
L. STUHNE-SEKALEC and N.Z. STANACEV **1181**

Stanacev, N.Z.
Thermally induced changes in reconstituted and membranous cytochrome *c* oxidase
A.S. DENES and N.Z. STANACEV **238**

Stanacev, N.Z.
Positional distribution of isomeric spin-labelled stearic acids and microsomal fatty acids in biosynthetic phosphatidylcholines
L. STUHNE-SEKALEC, N.Z. STANACEV, L. MARAI, and A. KUKSIS **408**

Stanacev, N.Z.
Translocation of isomeric spin-labelled radioactive cytidinediphosphodiglycerides from isolated guinea pig liver microsomal to mitochondrial membranes
L. STUHNE-SEKALEC and N.Z. STANACEV **618**

Stanacev, N.Z.
Biosynthesis, utilization, and translocation of endogenous isomeric spin-labelled radioactive cytidinediphosphodiglycerides from isolated guinea pig liver microsomal to mitochondrial membranes
L. STUHNE-SEKALEC and N.Z. STANACEV **1019**

Stanacev, N.Z.
Enzymatic degradation and partial biosynthetic reconstitution of microsomal and mitochondrial membranes
L. STUHNE-SEKALEC and N.Z. STANACEV **1237**

Steiner, D.F.
Mode of uptake and degradation of ^{125}I-labelled insulin by isolated hepatocytes and H4 hepatoma cells
S. TERRIS, C. HOFMANN, and D.F. STEINER **459**

Steiner, G.
An approach to measuring the *in vivo* transformation of glycerol to a very low density lipoprotein triglyceride

Characterization of proteins associated with nuclear ribonucleoprotein particles by two-dimensional polyacrylamide gel electrophoresis
D. SURIA and C.C. LIEW **32**

Sweet, G.D.
Purification and properties of a citrate-binding transport component, the C protein of *Salmonella typhimurium*
G.D. SWEET, J.M. SOMERS, and W.W. KAY **710**

Sykes, B.D.
Lysozyme catalysis: kinetics of the hydrolysis of cell wall oligosaccharides
KEN BOEKELHEIDE, STEVEN L. PATT, GREG WEISZ, JOHN H. BALDO, and BRIAN D. SYKE **785**

Sylvester, C.
Isolation of a human B lymphocyte membrane protein with Ia-like properties
A.K. Sullivan, L.M. Jerry, R.L. Ikeman, R.J. Maccari, H. Li Thi, and C. Sylvester **21**

Szoka, F.
A model for the study of the oral administration of peptide hormones
Murray Saffran, Roberto Franco-Saenz, Ann Kong, Demetrios Papahadjopoulos, and Francis Szoka **548**

Takahashi, S.
The *rep* mutation. VI. Purification and properties of the *Escherichia coli rep* protein, DNA helicase III
Seishi Takahashi, Christian Hours, Alan Chu, and David T. Denhardt **855**

Talgoy, M.M.
The interactions of adenylates with allosteric citrate synthase
Michael M. Talgoy and Harry W. Duckworth **385**

Talgoy, M.M.
The reactions of *Escherichia coli* citrate synthase with the sulfhydryl reagents 5,5′-dithiobis-(2-nitrobenzoic acid) and 4,4′-dithiodipyridine
Michael M. Talgoy, Alexander W. Bell, and Harry W. Duckworth **822**

Talgoy, M.M.
Erratum: The interactions of adenylates with allosteric citrate synthase
Michael M. Talgoy and Harry W. Duckworth **1110**

Tan, L.U.L.
Methylenetetrahydrofolate dehydrogenase - methenyltetrahydrofolate cyclohydrolase - formyltetrahydrofolate synthetase from porcine liver. Location of the activities in two domains of the multifunctional polypeptide
L.U.L. Tan and R.E. MacKenzie **806**

Taylor, W.M.
Stimulation of glucose transport in rat adipocytes by calcium
Wayne M. Taylor, Lena Hau, and Mitchell L. Halperin **692**

Tenenhouse, H.S.
Renal adaptation to phosphate deprivation in the *Hyp* mouse with X-linked hypophosphatemia
H.S. Tenenhouse and C.R. Scriver **938**

Tenenhouse, H.S.
Erratum: Renal adaptation to phosphate deprivation in the *Hyp* mouse with X-linked hypophosphatemia
H.S. Tenenhouse and C.R. Scriver **1416**

Terris, S.
Mode of uptake and degradation of ^{125}I-labelled insulin by isolated hepatocytes and H4 hepatoma cells
S. Terris, C. Hofmann, and D.F. Steiner **459**

Theriault, Y.
A magnetic resonance study of the coenzyme A - manganese(II) complex in solution
Yvon Theriault, Yuri Morio, and George Kotowycz **165**

Theriault, Y.
The nature of the coenzyme A – manganese(II) complex in solution as studied by proton magnetic resonance
Yvon Theriault and George Kotowycz **417**

Tinker, D.O.
Heterogeneous catalysis by phopholipase A_2: formulation of a kinetic description of surface effects
David O. Tinker and Jane Wei **97**

Tirpak, A.
Purification of dihydropterin reductase using immobilized Cibacron Blue
Michael M. Chauvin, Karl K. Korri, Anne Tirpak, Robert C. Simpson, and K.G. Scrimgeour **178**

Tirpak, A.
Nonspecific inhibition of dehydrogenases by folates: an artifact
K.G. Scrimgeour and Anne Tirpak **1176**

Tokmakjian, S.
The influence of dietary choline intake upon liver ethanolamine metabolism
S.Tokmakjian and D.S.M. Haines **566**

Tong, J.H.
On the characteristics of mitochondrial monoamine oxidase in pancreas and adipose tissues from genetically obese mice
J.H. Tong, A. D'Iorio, and C.Kandaswami **197**

Treloar, M.A.
Protein kinase activity and ribosome phosphorylation in ethionine-treated rats
Margaret A. Treloar and Robert Kisilevsky **209**

Tremblay, P.-A.
Chemical synthesis of *sn*-3-phosphatidyl sulfocholine, a sulfonium analog of lecithin
Paul-Alain Tremblay and Morris Kates **595**

Tremblay, P.-A.
Erratum: Chemical synthesis of *sn*-3-phosphatidyl sulfocholine, a sulfonium analog of lecithin
Paul-Alain Tremblay and Morris Kates **1250**

Tremblay, R.R.
Interaction of spironolactone with rat skin androgen receptor
Andrée Boisselle, France T. Dionne, and Roland R. Tremblay **1042**

Trepman, E.
Phosphorescence evidence for the role of solvent-protein interactions in the energetics of conformational flexibility of liver alcohol dehydrogenase
Stephen Kishner, Elly Trepman, and William C. Galley **1299**

Tsao, J.
Evaluation of receptor function in ACTH-responsive and ACTH-insensitive adrenal tumor cells
Patricia A. Rae, Jennivine Tsao, and Bernard P. Schimmer **509**

Tustanoff, E.R.
Immunological and biological activities of fragments and analogs of bradykinin
L.W. Redman, D. Regoli, and E. Reno Tustanoff **529**

Unrau, A.M.
The biosynthesis of the free sterols and sterol esters of *Neurospora crassa*
A.M. Pierce, H.D. Pierce, Jr., A.M. Unrau, A.C. Oehlschlager, R.E. Subden and R.L. Renau **112**

Unrau, A.M.
Azasterol inhibitors in yeast. Inhibition of the Δ^{24}-sterol methyltransferase and the 24-methylene sterol $\Delta^{24(28)}$-reductase in sterol mutants of *Saccharomyces cerevisiae*
A.M. Pierce, A.M. Unrau, A.C. Oehlschlager, and R.A. Woods **201**

Upreti, R.K.
Influence of choline and ethanolamine administration on choline and ethanolamine phosphorylating activities of mouse liver and kidney
R.K. Upreti **981**

Vaillant, R.
Evolution et controle de l'activité de l'amylo-1,6-glucosidase du foie foetal de rat
R. Vaillant, P. Bourgeois-Victor et A. Fairand **1245**

Vance, D.E.
Lipid requirements for the aggregation of CTP: phosphocholine cytidylyl transferase in rat liver cytosol
Patrick C. Choy, S. Blake Farren, and Dennis E. Vance **605**

Vanni, P.
Studies on isocitrate lyase isolated from *Lupinus* cotyledons
P.Vanni, M.T. Vincenzini, F.M. Nerozzi, and S.P. Sinha **1131**

Vasdev, S.C.
Acylglycerol structure of mustard seed oil and of cardiac lipids of rats during dietary lipidosis
J.J. Myher, A. Kuksis, S.C. Vasdev, and K.J. Kako **1315**

Verpoorte, J.A.
The effects of alcohols on the structure of human glycophorin
David M. Byers and Jacob A. Verpoorte **1153**

Vickers, J.D.
The effect of membrane cholesterol depletion upon erythrocyte membrane-bound enzymes
J.D. Vickers and M.P. Rathbone **1144**

Vinay, P.
Characteristics of glutamine metabolism by rat kidney tubules: a carbon and nitrogen balance
Patrick Vinay, Guy Lemieux, and André Gougoux **346**

Vincenzini, M.T.
Studies on isocitrate lyase isolated from *Lupinus* cotyledons
P.Vanni, M.T. Vincenzini, F.M. Nerozzi, and S.P. Sinha **1131**

Visentin, L.P.
Structural homologies in alanine-rich acidic ribosomal proteins from procaryotes and eucaryotes
Louis Peter Visentin, Makoto Yaguchi, and Alistair T. Matheson **719**

Viswanatha, T.
2,3-Butanedione as a photosensitizing agent: application to α-amino acids and α-chymotrypsin
Henry Fliss and Thammaiah Viswanatha **1267**

Vlaovic, M.
Purification of UDP-*N*-acetylenolpyruvoylglucosamine reductase from *Escherichia coli* by affinity chromatography, its subunit structure and the absence of flavin as the prosthetic group
Rashid A. Anwar and Mariana Vlaovic **188**

Wainwright, L.K.
Chick pineal serotonin acetyltransferase: a diurnal cycle maintained *in vitro* and its regulation by light
S.D. Wainwright and Lillian K. Wainwright **700**

Wainwright, S.D.
Chick pineal serotonin acetyltransferase: a diurnal cycle maintained *in vitro* and its regulation by light
S.D. Wainwright and Lillian K. Wainwright **700**

Walker, B.L.
Hepatic 3-hydroxy-3-methyl-glutaryl-CoA reductase response to litter size in suckling rats
Peter Hahn and Brian L. Walker **1216**

Walker, R.D.
Erratum: *S*-Adenosylhomocysteine metabolism in various species
R.D. Walker and J.A. Duerre **65**

Walsh, M.
Circular dichroism studies of native and chemically modified Ca^{2+}-dependent protein modulator
Michael Walsh, Frits C. Stevens, Kimio Oikawa, and Cyril M. Kay **267**

Webster, K.A.
Binding of mitochondrial malate dehydrogenase to mitoplasts
Paula M. Strasberg, Keith A. Webster, Hasmukh V. Patel, and Karl B. Freeman **662**

Wei, J.
Heterogeneous catalysis by phopholipase A_2: formulation of a kinetic description of surface effects
David O. Tinker and Jane Wei **97**

Weiner, J.H.
Purification and characterization of membrane-bound fumarate reductase from anaerobically grown *Escherichia coli*
Peter Dickie and Joel H. Weiner **813**

Weiner, J.H.
Hybrid plasmids complement a *putP* mutation in *Escherichia coli* K12
Janet M. Wood, David Zadworny, Elke Lohmeier, and Joel H. Weiner **1328**

Weisz, G.
Lysozyme catalysis: kinetics of the hydrolysis of cell wall oligosaccharides
Ken Boekelheide, Steven L. Patt, Greg Weisz, John H. Baldo, and Brian D. Syke **785**

Welbourne, T.C.
Ammonia production and glutamine incorporation into glutathione in the functioning rat kidney
T.C. Welbourne **233**

Williams, R.E.
The interaction of polymeric viologens with hydrogenases from *Desulfovibrio desulfuricans* and *Clostridium pasteurianum*
BERNARD R. GLICK, WILLIAM G. MARTIN, J. JEAN GIROUX, and ROSS E. WILLIAMS **1093**

Wilson, J.R.
A structural basis for four distinct elution profiles on concanavalin A – Sepharose affinity chromatography of glycopeptides
SAROJA NARASIMBAN, JAMES R. WILSON, EVA MARTIN, and HARRY SCHACHTER **83**

Wittmann, H.G.
Structure of ribosomes
H.G. WITTMANN **1251**

Wood, J.M.
Characterization of an inducible porter required for L-proline catabolism by *Escherichia coli* K12
JANET M. WOOD and DAVID ZADWORNY **1191**

Wood, J.M.
Hybrid plasmids complement a *putP* mutation in *Escherichia coli* K12
JANET M. WOOD, DAVID ZADWORNY, ELKE LOHMEIER, and JOEL H. WEINER **1328**

Woods, R.A.
Azasterol inhibitors in yeast. Inhibition of the Δ^{24}-sterol methyltransferase and the 24-methylene sterol $\Delta^{24(28)}$-reductase in sterol mutants of *Saccharomyces cerevisiae*
A.M. PIERCE, A.M. UNRAU, A.C. OEHLSCHLAGER, and R.A. WOODS **201**

Wosu, L.O.
Multiple effects of serum low-density lipoprotein on cultured human fibroblasts
M.J. SPAIN, L.O. WOSU, and N. KALANT **684**

Yaguchi, M.
Structural homologies in alanine-rich acidic ribosomal proteins from procaryotes and eucaryotes
LOUIS PETER VISENTIN, MAKOTO YAGUCHI, and ALISTAIR T. MATHESON **719**

Yam, C.F.
Kinetics of acetylcholinesterase immobilized on polyethylene tubing
T.T. NGO, K.J. LAIDLER, and C.F. YAM **1200**

Yamazaki, H.
Effect of carbon sources on the rates of cyclic AMP synthesis, excretion, and degradation, and the ability to produce β-galactosidase in *Escherichia coli*
ANN D.E. FRASER and HIROSHI YAMAZAKI **1073**

Yamazaki, H.
In vivo preparation of [^{32}P]cAMP and thin-layer chromatography of cAMP-related compounds
HIROSHI YAMAZAKI, KWOK-LUEN LEUNG, and ANN D.E. FRASER **1281**

Yip, C.C.
Preparation of β-cells from fetal bovine pancreas: characterization of insulin biosynthetic activity
STEVEN A. ROSENZWEIG and CECIL C. YIP **480**

Yip, D.K.
Enhancement of microsomal phosphatidate phosphohydrolase and diacylglycerol acyltransferase activity by insulin during growth of rat adipocyte precursors in culture
DANIEL A.K. RONCARI, ESTHER Y.W. MACK, and DOMINIC K. YIP **573**

Young, P.G.
Products of mitochondrial protein synthesis in *Tetrahymena*
PAUL G. YOUNG and NEIL P. HUNTER **314**

Young, S.N.
The effect of growth hormone on the metabolism of a tryptophan load in the liver and brain of hypophysectomized rats
SIMON N. YOUNG and MICHAEL ORAVEC **517**

Yu, P.H.
N-Acylation of tyramines: purification and characterization of an arylamine *N*-acetyltransferase from rat brain and liver
PETER H. YU and ALAN A. BOULTON **1204**

Yuen, R.
Low density lipoprotein binding, internalization, and degradation in human adipose cells
A. ANGEL, M.A. D'COSTA, and R. YUEN **578**

Zadworny, D.
Characterization of an inducible porter required for L-proline catabolism by *Escherichia coli* K12
JANET M. WOOD and DAVID ZADWORNY **1191**

Zadworny, D.
Hybrid plasmids complement a *putP* mutation in *Escherichia coli* K12
JANET M. WOOD, DAVID ZADWORNY, ELKE LOHMEIER, and JOEL H. WEINER **1328**

Zaher, M.R.
A kinetic study of hydrophobic interactions at the S1 and S2 sites of papain
LEWIS J. BRUBACHER and M.R. ZAHER **1064**

Zalik, S.
Analysis of a 5S RNA-protein complex isolated from the ribosomes of rye embryos
TRISTAN A. DYER and SAUL ZALIK **1400**

Zombor, G.
Relationships among purine nucleoside metabolism, adenosine triphosphate catabolism, and glycolysis in human erythrocytes
J. FRANK HENDERSON, GEORGE ZOMBOR, PHILIP W. BURRIDGE, GEORGE BARANKIEWICZ, and CAMILLA M. SMITH **873**

CANADIAN JOURNAL OF BIOCHEMISTRY/ JOURNAL CANADIEN DE BIOCHIMIE VOLUME 57 (1979)

SUBJECT INDEX/INDEX DES MATIERES

Acclimation rye low temp carboxylase 1036
Acetobacter glucan 1284
Acetylcholinesterase immobilized kinetics 1200
Acetylcholinesterase retina Eugerres Carassius 43
Acetylglucosamine pyrophosphatase microsome nucleotide 557
Acetylglucosaminyl transferase microsome membrane nucleotide 557
Acetylglucosaminyltransferase solubilization lysolecithin 66
Acetyltransferase arylamine brain liver 1204
Acetyltransferase serotonin pineal rhythm 700
ACTH lipotropin MSH precursor review 1111
ACTH receptor adrenal tumor 509
Actin proteolysis phalloidin 49
Acylglycerol acyltransferase adipocyte insulin 573
Acylglycerol spin label stearic acid 408
